Dear Ms. Johnson-Ball:

The League of Women Voters of Wilmington is submitting additional comments regarding the redevelopment of Olin Chemical's Eames Street property by New England Transrail. We thank the Board for the invitation sent by Victoria Rutson last month.

Included with her letter, Ms. Rutson provided a "Site Layout Plan" dated 3-28-06. There was no additional documentation that explained the new site plan, nor have we been able to locate the plan with any attendant information on the STB's website or in the Public Involvement Plan Repository in Wilmington's Memorial Library.

We would very much appreciate your prompt reply to let us know how we may gain access to the newly revised document(s) and/or any accompanying correspondence from NETR and its consultants regarding the most current intentions and any additional "modifications" to the December 5, 2005 Petition. (We are assuming the relevant information is posted somewhere on the STB's website and that we just haven't been able to locate it.)

Thank you.

Martha Stevenson for the LWVW
